SIZING: All mouldings should be ordered based upon the size of the picture. We will add 1/8" standard allowance for an easier fit.

If the dimension is "exact" you must specify "exact."

PRICING: All prices are for joined frames with filled and polished corners. If your size is not listed on this chart or is "fractional" please round up to next united inches category (ie - 6 x 9 1/2 = 16 UI). Call our office for length pricing. We do not offer box quantity discounts.

** All mouldings are priced without a liner. To add a liner select from below liner options.

No discounts apply for joined frames. However, a 10% discount is available for chop only frames and a 20% discount is available for length moulding.

LINERS:

LINER SIZING: The liner should be ordered based upon the size of the picture. We will add 1/8" standard allowance for an easier fit.

If the dimension is "exact" you must specify "exact." We will cut the outside moulding(s) to fit the liner dimension.

PRICING: The above prices are for liners only. In order to compute the cost of adding a liner to a moulding simply add the liner width factor (united inches) to any moulding above for your finished frame price (ie for a liner with width of 1 1/4" = 4(UI), simply add 4 united inches to any moulding above AND add the liner cost and moulding cost for your total cost.
